European School Education Platform Support

Release 4.0 and 4.1 – July 2024

2024-11-26 - Jessica - Release announcements

In this article, you can find the latest information on the status of platform development.

New/improved features

Main platform

- Updated platform navigation to improve usability

- Updated global search

Enhancements

Main platform

- Connect: Schools and Organisations list – country sort field improved and reorganised based on the Erasmus+ programme

eTwinning

- Correct Student Teacher roles each time a relevant organisation type change is applied

- Improved the process to join eTwinning after adding an organisation

Organisations

- Replace Twitter with X

User registration

- Mandatory to fill in Subjects or Vocational subjects

TwinSpaces

- Online meetings should not be visible nor accessible to pupils

Issues fixed

Main platform

- Course search function does not retrieve accurate results

- Course search partially ignores starting date, always uses earliest 'next upcoming session' instead

- Course session list design needs to be corrected

- If a registered user clicks on 'Create account' instead of 'Log in' after the EU login, receives an error message

- Removing the course session does not work – it stays visible

eTwinning

- eTwinning Featured Groups: user gets an error page when clicking on 'View all'

- Rooms: too much time between creating and seeing a thread

- Student Teachers required to complete User-in-School information when adding ITEI

TwinSpaces and groups

- Multiple fixes for members roles

- Allow only 1 option at a time when editing members role

Groups

- Error page when uploading files in Group – Materials → Files section

TwinSpaces

- eTranslation blocks some TwinSpace functions

- Problem with the TwinSpace for public view

- Teachers cannot edit or add pages in TwinSpaces

- User seeing 'Not authorised' message when entering TwinSpace materials

- Wrong link automatically generated for new discussions
