How can I save content from my legacy TwinSpace?

Koen - 2025-01-15 - General

The legacy platform, including the old TwinSpaces, will be taken offline. In this screencast we show briefly how you can access and download your materials.

Here’s a short video which shows how you can save content from your TwinSpaces on the legacy platform. Below the video, we have the steps in writing.

As explained in the video, to save the content from your legacy TwinSpace:

- you first go to https://twinspace.etwinning.net (you may need to accept the warning about an expired certificate)
- you log in with your **legacy** username and password
- you access the TwinSpace of which you want to save materials
- and you can save materials as such:
    - homepage (including latest updates) and pages: press control + P to print, and use the option ‘Print to PDF’ of your browser
    - materials > images: click once on the image and right-click on the link ‘View original’ and then ‘Save link as…’
    - materials > files: click on the file and click the link ‘Download file’
